

Statement of Advice:

ixazomib 2.3mg, 3mg and 4mg hard capsules (Ninlaro®)
Takeda UK Ltd

SMC2099

8 June 2018

ADVICE: in the absence of a submission from the holder of the marketing authorisation

ixazomib (Ninlaro®) is not recommended for use within NHSScotland.

Indication under review: in combination with lenalidomide and dexamethasone for the treatment of adult patients with multiple myeloma who have received at least one prior therapy.

The holder of the marketing authorisation has not made a submission to SMC regarding this product in this indication. As a result we cannot recommend its use within NHSScotland.

Advice context:

No part of this advice may be used without the whole of the advice being quoted in full.

This advice represents the view of the Scottish Medicines Consortium. It is provided to inform the considerations of Area Drug & Therapeutics Committees and NHS Boards in Scotland in determining medicines for local use or local formulary inclusion. This advice does not override the individual responsibility of health professionals to make decisions in the exercise of their clinical judgement in the circumstances of the individual patient, in consultation with the patient and/or guardian or carer.

Vice Chairman
